

## THE STORY

DyStar's responsible dyes mean you won't have to second-guess or compromise your color palette - or fabric type - when you're designing your next collection. Dianix® for polyester; Remazol®, Indanthren® and Levafix® for cotton come in a range of colors; and Realan® Black is made for cashmere, wool and silk. There's also an alternative to traditional indigo powder dye: DyStar Indigo 40% Liquid Solution for cotton. All of these dyes are already available, just ask for them at your current mill.

## DyStar Textile Dyes

THIS MATERIAL HEALTH CERTIFICATE INCLUDES SIX MATERIALS:

DyStar Indigo 40% Solution	<a href="#">Page 2</a>
Realan® Black Reactive Dye	<a href="#">Page 3</a>
