

Product Specification Sheet Products

Produced at Arctic Paper Grycksbo AB

Company: Arctic Paper Grycksbo AB
 Certification #: 4805
 Initial issuance date: April 16, 2021
 Expiration date: April 15, 2023

Product description:

Arctic: The Arctic range contains fully coated fine paper qualities designed for good printing properties and image reproduction. The range includes high-bulk matte coated papers, as well as semi-matte papers. The paper is characterized by high bulk, opacity and rigidity. Each quality is available in a range of both sheets and reels.

G: The G range is a woodfree, coated, matte paper designed for demanding image reproduction. It has significant bulk and stiffness, with a smooth and low-reflecting surface. The paper is designed for a range of applications, including books, magazines, brochures, catalogues, covers, direct mail, leaflets, posters, advertisements, and maps. Each quality is available both as sheets and as reels in various sizes.
