

CS Louvers (Select Models and Finishes) *Cradle to Cradle Certified™* Silver v3.1 Specification Sheet

CS Louvers have been the quality leader in the industry since we developed the first extruded louver in 1948. Our extensive line includes storm resistant, extreme weather, non-drainable, drainable, acoustical, perform and boldline louvers.

Cradle to Cradle Certified™ levels achieved by CS Louver products are based on the lowest assessment level of model variations and finishes selected. Review model notes to see if optional items could lower the model's certification level. In some cases, there are noncertified model variations that are exceptions to current certification. For description and pictures of models and finishes, visit www.c-sgroup.com/louvers

Only the following models and finishes are considered *Cradle to Cradle Certified™* Silver within the scope of certification #3197 valid June 23, 2017 to June 22, 2019.

Models Approved:

[Storm Resistant](#)

[Extreme Weather \(Hurricane\)](#)

[Drainable](#)

[Non-Drainable](#)

[Non-Drainable: Formed Metal](#)

[Non-Drainable: Air Conditioning & Thinline](#)

[Blast](#)

[Perform](#)

[Bold Line](#)

Finish Options:

All CS' 20 Year AAMA 2605 Powder Coat Finishes are included in the certification.

Cradle to Cradle certification of custom products will be addressed on a case-by-case basis.
