

Product Specification Sheet

Stratobel and Stratophone

Certification	3518
Issue date:	5 May 2018
Expiration date:	4 May 2020

Stratobel is the range of AGC laminated glass. Laminated glass consists of assembly of one or more sheets of glass and one or more PVB (polyvinyl butyral) interlayers. If the glass is broken, most of the fragments remain stuck to the interlayer. Stratophone is the range of AGC acoustic laminated glass.

Approved for use (when manufactured with Cradle to Cradle Certified™ Silver or higher AGC/ Interpane Glass):

All combination of at least 2 glass from AGC / Interpane, coated or not and combination of one or several layers of PVB.

By glass from AGC / Interpane, is meant

- Planibel Clearlite / ipaclear
- Planibel Clearvision
- Planibel Linea Azzurra
- Planibel Coloured (Azur, Bronze, Dark Blue, Dark grey, Green, Grey, Privablue)

By layer of PVB, is meant

- All clear interlayers used in Stratobel products, including Stratobel Strong
- All acoustic interlayers used in Stratophone products except Stratophone products for the Italian market
- All translucent interlayers as Mat 65 and Mat 80
- All coloured interlayers used for Stratobel Colour except Terra Brown interlayer

By coating, is meant

- Planibel Top N+
- Planibel Top N+T
- iplus
- ipasol
- Stopray
- Stopsol Phoenix
